

LOOKING FOR MORE SUSTAINABLE PACKAGING?

Do you want to change to more eco-friendly packaging which doesn't cost the earth? Choose alternative packaging which is made of sustainable, recyclable products. Choose a stock box which fits your products, avoiding unnecessary void fill and reducing transport costs. Select lighter weight packaging that still performs well and protects, but saves on raw material and storage space.

Super Strong Single Wall Boxes - The modern alternative to double wall

Self-adhesive Paper Tape - use with a standard dispenser

Paper Mailing Bags - we stock the largest range in the UK

Void-fill packing paper - simple, yet effective way to cushion your products

Natural tissue paper - 100% recycled to wrap and protect

Gummed Paper Tape Standard or Reinforced from stock

**Adjustable folders,
envelopes & boxes**

**Avoid unnecessary void fill,
save on despatch costs**

**Storopack paper cushioning
machinery
Saves on transport &
storage space**

Jiffy padded bags

100% recycled paper filling

Many more products available online, easy to order for next day delivery. Look out for our environmental logos on the product page or find out more [here](#).

Customised Packaging

PRINT ME!

Why not have packaging printed with your eye-catching logo to make your product more memorable?

We print self-adhesive paper tapes in-house, up to 3 colours on brown or white paper, ideal for box sealing and the minimum quantity is just 40 rolls. www.kilby.co.uk/printed_tape

Paper mailing bags, boxes and folders can also be printed in full colour, from just 300 units. And because of digital technology using water based inks, there aren't any printing plate costs. Find out more about this service at www.kilby/printme.
